

## Course 1 – Advanced course in Robotical prostatectomy

13.30	<b>Introduction</b> W. Artibani, Verona (IT)
13.30 – 15.00	<b>General principles of robotic radical prostatectomy</b>
13.30	<b>My way of access: How I place the ports</b> W. Artibani, Verona (IT)
13.40 – 14.30	<b>Step-by-step operative procedure</b>
13.40	<b>Bladder neck approach: Preservation or not: How do I do it?</b> P. Dasgupta, London (GB) F. Montorsi, Milan (IT)
14.00	<b>Posterior dissection: Seminal vesicles complete dissection</b> W. Artibani, Verona (IT)
14.10	<b>Posterior dissection seminal vesicles sparing</b> F. Montorsi, Milan (IT)
14.20	<b>Lateral dissection: Anatomical reminders: Peri Prostatic fascia, neuro vascular peri prostatic structures</b> P. Dasgupta, London (GB)
14.30 – 15.00	<b>Nerve sparing: Which space of dissection, how do I do it?</b>
14.30	<b>Interfacial dissection</b> P. Dasgupta, London (GB)
14.40	<b>Interfascial antegrade dissection</b> W. Artibani, Verona (IT)
14.50	<b>Intra fascial dissection</b> F. Montorsi, Milan (IT)
15.00 – 15.30	<b>Coffee break</b>
15.30 – 16.00	<b>Apex &amp; DVC</b>
15.30	<b>First approach</b> P. Dasgupta, London (GB)
15.40	<b>Final approach</b> W. Artibani, Verona (IT) F. Montorsi, Milan (IT)
15.50	<b>Special techniques for continence: Anterior fixation &amp; Posterior fixation: Rocco Technique</b> W. Artibani, Verona (IT)
16.00 – 16.30	<b>Anastomosis</b>
16.00	<b>Double half running suture</b>

- 16.10 W. Artibani, Verona (IT)  
**Vloc suture**
- 16.20 P. Dasgupta, London (GB)  
**Unique running suture**  
F. Montorsi, Milan (IT)
- 16.30 – 16.40 **Lymphadenectomy**  
16.30 **Techniques of extended lymphadenectomy**  
W. Artibani, Verona (IT)
- 16.40 – 17.00 **Specific situations**  
16.40 **Bladder neck and median lobe/Previous prostatic surgery: TURP, Adenomectomy**  
F. Montorsi, Milan (IT)
- 16.50 **Salvage prostatectomy**  
F. Montorsi, Milan (IT)
- 17.00 – 17.10 **Postoperative complications**  
17.00 **Prevention and management, actual standard**  
P. Dasgupta, London (GB)
- 17.10 **Anatomical and functional results**  
W. Artibani, Verona (IT)
- 17.20 **Conclusions**  
W. Artibani, Verona (IT)
- 17.30 **Closure**

## Course 2 – Advanced Course in Robotics in the Upper Urinary tract

- 13.30            **Introduction: Use of robot in upper urinary tract surgery**  
A. Mottrie, Aalst (BE)
- 13.45            **Patient positioning, trocar positioning, trans- and retroperitoneal access in renal robotic surgery**  
A. Mottrie, Aalst (BE)
- 14.00            **Robotic pyeloplasty: Multichannel or single site technique**  
B. Challacombe, London (GB)
- 14.15            **Renal surgery: Nephrectomy and nephroureterectomy: How I do it**  
C. Vaessen, Paris (FR)
- 14.30            **Current indications for partial nephrectomy and nephrometry scores**  
C. Vaessen, Paris (FR)
- 14.40            **Partial nephrectomy I**  
**Step I: Isolation of renal hilum**  
**Step II: Mobilisation of the kidney**  
**Step III: Clamping of renal pedicle: Different techniques**  
A. Mottrie, Aalst (BE)  
B. Challacombe, London (GB)  
C. Vaessen, Paris (FR)
- 15.00 – 15.30    **Coffee break**
- 15.30            **Partial nephrectomy II**  
**Step IV: Different tumorresection techniques**  
A. Mottrie, Aalst (BE)  
B. Challacombe, London (GB)  
C. Vaessen, Paris (FR)
- 16.00            **Partial nephrectomy III**  
**Step V: Different renorrhaphy techniques**  
A. Mottrie, Aalst (BE)  
B. Challacombe, London (GB)  
C. Vaessen, Paris (FR)
- 16.30            **Postoperative care**  
B. Challacombe, London (GB)
- 16.40            **Special techniques:**  
**Which haemostatic agents are useful? Surgical bolster?**  
B. Challacombe, London (GB)  
**Selective clamping or zeroischemia: What's up, doc?**

C. Vaessen, Paris (FR)

**New developments**

A. Mottrie, Aalst (BE)

- Robotically applied Bulldogs
- Fluorescence
- Drop in ultrasound devices
- Robotic suction/irrigator device

17.00

**Partial nephrectomy IV: Special cases / complication management**

A. Mottrie, Aalst (BE)

B. Challacombe, London (GB)

C. Vaessen, Paris (FR)

- Hilar tumours
- Endophytic tumours
- Cystic tumour
- Limits of RAPN
- Other

17.30

**Closure**

### Course 3 – Advanced course in Robotical cystectomy and diversion

13.30	<b>Introduction</b> P. Wiklund, Stockholm (SE)
13.50 – 15.00	<b>Cystectomy</b>
13.50	<b>Open radical cystectomy &amp; lymphadenectomy in bladder cancer</b> J. Palou, Barcelona (ES)
14.10	<b>Robotic-assisted cystectomy: Step-by-step male</b> K. Guru, Buffalo (US)
14.24	<b>Female cystectomy</b> J. Palou, Barcelona (ES)
14.40	<b>Lymphadenectomy</b> C.M. Annerstedt, Stockholm (SE)
15.00 – 15.30	<b>Coffee break</b>
15.30 – 16.20	<b>Diversion</b>
15.30	<b>Extracorporeal urinary diversion</b> J. Palou, Barcelona (ES)
15.40	<b>Intracorporeal urinary diversion</b> <b>Bricker conduit</b> K. Guru, Buffalo (US) <b>Neobladder</b> C.M. Annerstedt, Stockholm (SE) P. Wiklund, Stockholm (SE)
16.10	<b>Ways to proceed – Panel discussion</b>
16.20 – 17.30	<b>Results</b>
16.20	<b>Outcomes after robotic-assisted cystectomy</b> P. Wiklund, Stockholm (SE)
16.45	<b>Complications</b> C.M. Annerstedt, Stockholm (SE)
17.10	<b>IRCC presentation</b> K. Guru, Buffalo (US)
17.25 - 17.30	<b>Closure</b>

## Course 4 – Advanced course in Robotical reconstructive surgery

13.30	<b>Introduction</b> M. Stöckle, Homburg (DE)
13.30 – 14.45	<b>Upper tract</b>
13.30	<b>UPJ Stenosis: Pyeloplasty step by step</b> N. Buffi, Milan (IT)
13.45	<b>UPJ Stenosis: Single port pyeloplasty</b> N. Buffi, Milan (IT)
14.00	<b>Kidney: Special cases</b> M. Stöckle, Homburg (DE)
14.15	<b>Stone surgery in upper and lower tract</b> C-H. Rochat, Geneva (CH)
14.30	<b>Discussion</b>
14.45 – 15.00	<b>Ureter</b>
14.45	<b>Reconstructive ureteral surgery (benign)</b> N. Buffi, Milan (IT)
15.00 – 15.30	<b>Coffee break</b>
15.30	<b>Reconstructive ureteral surgery (malignant)</b> M. Stöckle, Homburg (DE)
15.45 – 17.00	<b>Pelvis</b>
15.45	<b>Bladder diverticulectomy</b> M. Stöckle, Homburg (DE)
16.00	<b>Urinary fistulae</b> N. Buffi, Milan (IT)
16.15	<b>Urogenital prolapse</b> C-H. Rochat, Geneva (CH)
16.30	<b>Associated inguinal hernia repair</b> C-H. Rochat, Geneva (CH)
16.45	<b>Discussion</b>
17.00 – 17.30	<b>External genitalia</b>
17.00	<b>Surgery for male infertility</b> G.A. De Boccad, Genève (CH)
17.20	<b>Discussion</b>
17.30	<b>Closure</b>

## Course 5 – Basics of Robot Prostatectomy course

- |               |   |
|---------------|---|
| 13.30         | <b>Introduction</b><br>P-T. Piéchaud, Bordeaux (FR)   |
| 13.40         | <b>Patient selection</b><br>P-T. Piéchaud, Bordeaux (FR)  |
| 13.55         | <b>Anesthesia</b><br>B. Rocco, Milan (IT)   |
| 14.10         | <b>Training options within EAU</b><br>J. Witt, Gronau (DE)  |
| 14.25         | <b>Modular steps in RARP and basic anatomy</b><br><b>Bladder neck/Retzius</b><br>P-T. Piéchaud, Bordeaux (FR) |
| 14.40         | <b>Discussion</b>   |
| 15.00 – 15.30 | <b>Coffee break</b>   |
| 15.30         | <b>Seminal vesicles</b><br>J. Witt, Gronau (DE)   |
| 15.45         | <b>Pedicle and bundles</b><br>B. Rocco, Milan (IT)  |
| 16.00         | <b>Santorini and urethra</b><br>P-T. Piéchaud, Bordeaux (FR)  |
| 16.15         | <b>Anastomosis</b><br>J. Witt, Gronau (DE)  |
| 16.30         | <b>The Rocco stitch</b><br>B. Rocco, Milan (IT)   |
| 16.45         | <b>Nodal dissection</b><br>P-T. Piéchaud, Bordeaux (FR)   |
| 17.00         | <b>Postoperative functional recovery</b><br>J. Witt, Gronau (DE)  |
| 17.15         | <b>Discussion</b>   |
| 17.30         | <b>Closure</b>  |
